

MAKE A MODEL LAARIM HOME

To make the walls, cut 4cm from a cardboard tube or roll up some cardboard into a tube. Draw on or cut out the door.

1

To make the roof, draw and cut a circle with a 16cm diameter. Cut a slot to the middle, then fold and glue it into a cone that fits onto the walls.

2

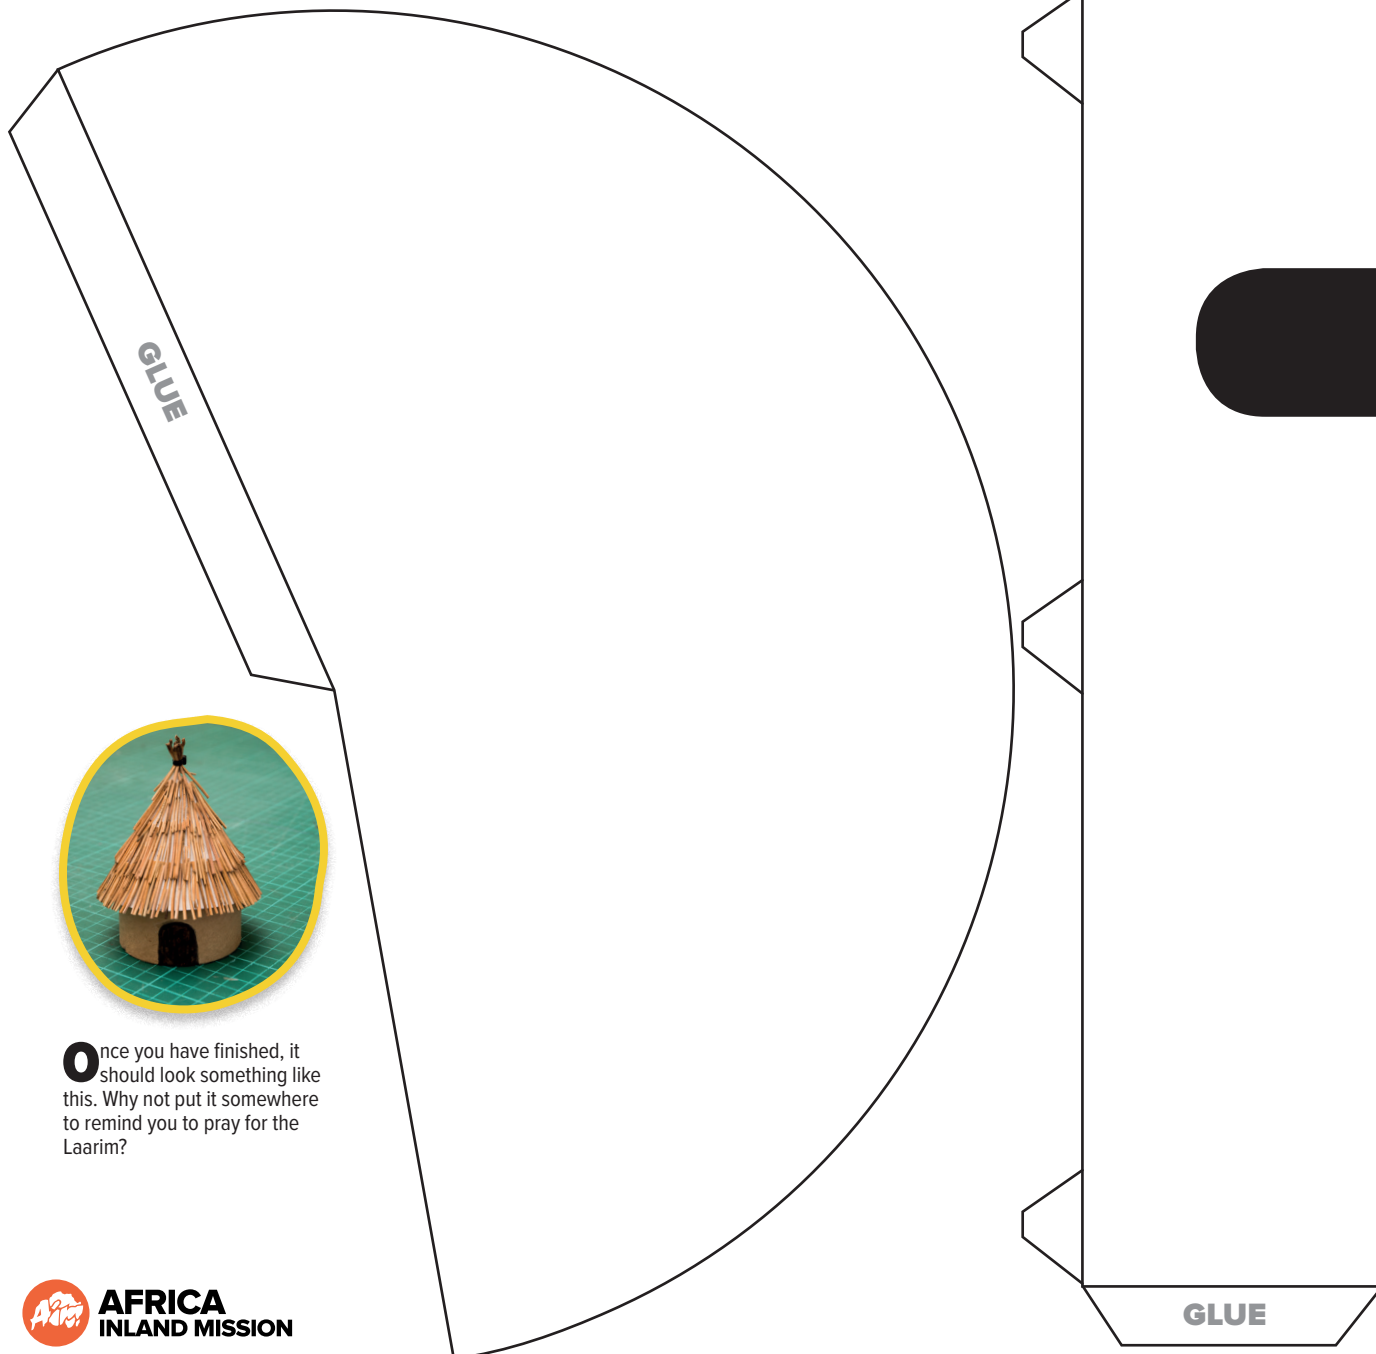

3

Cut straw or grass into 3cm lengths and glue them around the bottom edge. Do the same above until you have covered the whole roof.

4

Glue the roof to the walls. You can make little tabs to help make it easier.

Once you have finished, it should look something like this. Why not put it somewhere to remind you to pray for the Laarim?
